I've found shooting center-point autofocus the easiest setting on RICOH GR II. You can do other things like zone-focusing (using the 'snap focus' mode) and such- but still at the end of the day, center-point autofocus seems to be the fastest, simplest, and the most accurate setting to use 90% of the time.

5 Tips to Shoot Better Photos on RICOH GR II - ERIC KIM

With the camera turned off, shake it and make sure the rattling (supposedly due to the sensor stabilization mechanism), if any, is not beyond what you feel comfortable with. In general, I would press and twist the camera gently from
